

# User Guide

You may use the Picture Box system as a Guest, Member or Admin. Features of Picture Box vary depending on how you use the service.

## Guest Users

Guest users may only view images that have been made public by other users. As a guest user you may view and download these images.

When you access Picture Box as a guest user, you are presented with the screen in figure 1.

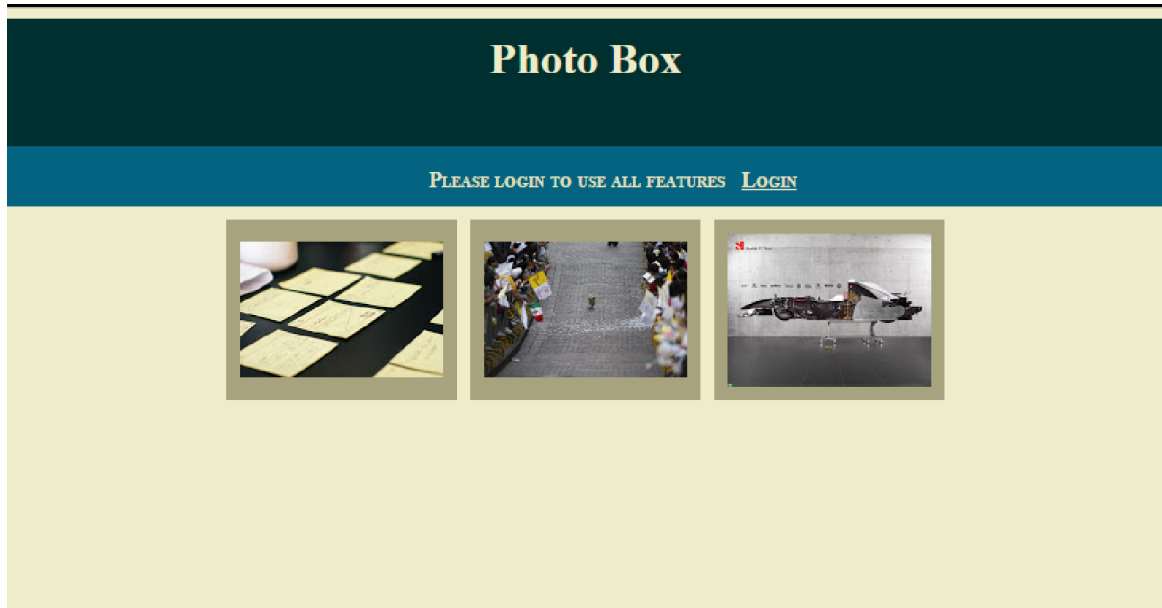

Figure 1

This screen allows you to view all images uploaded and made public by registered users.

The login link allows you to login using your Google account.

Upon logging, a guest user becomes a member user and can begin to upload their own images.

## Member Users

Member users can:

- Upload Images
- View their own images
- View all public images
- Change their own image permissions

If you have previously logged into Picture Box are not currently logged into Picture Box, you will be presented with the screen in figure 1. To view any images that you have previously uploaded, click "login" to login with your Google account.

After logging in you will be presented with the "My Images" screen in figure 2.

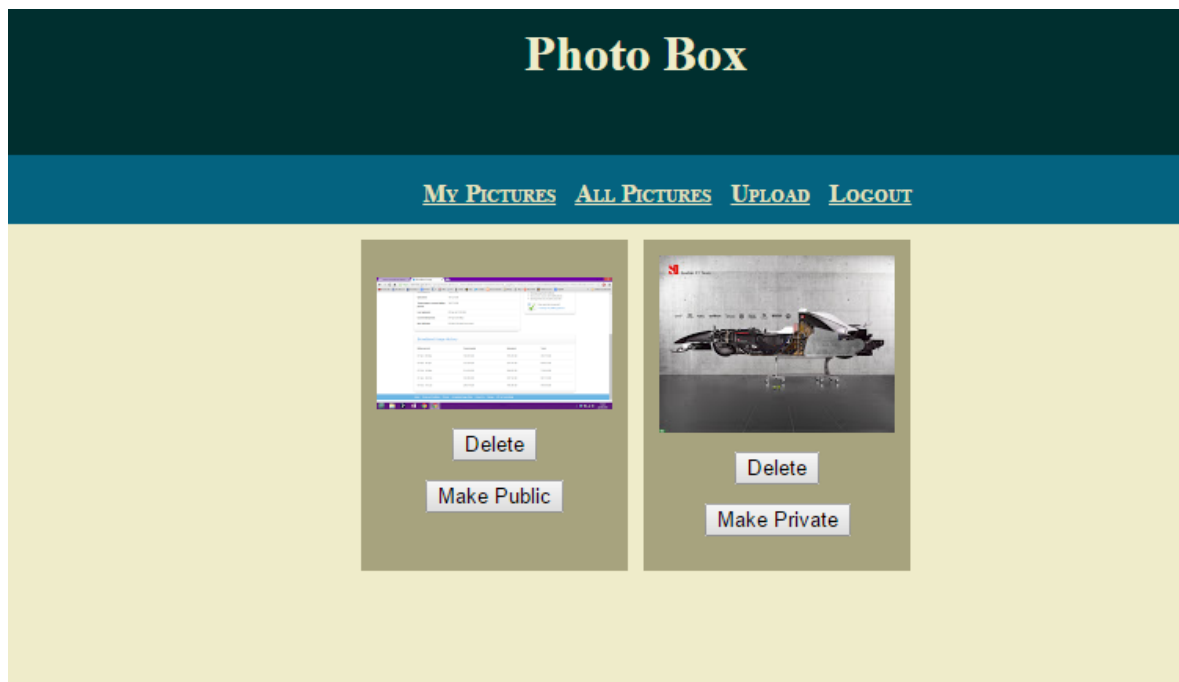

Figure 2

The My Pictures screen shows all the pictures that you have uploaded. If you have no pictures uploaded, this will be blank.

From this screen you can change the permissions of an image or delete it. Once you delete an image it cannot be retrieved.

Clicking the “All Pictures” link, will bring you to a screen displaying all your images alongside the public images of other users.

Clicking “Upload” will bring you to the page for uploading images.

## Admin Users

Users with admin privileges can view and delete all user images, public or private. When they login, admin users are presented with an extra option to view all users images. Within this viewing page, the admin user can choose to delete images.

Within the Admin Picture screen, the account which owns each image is displayed underneath.

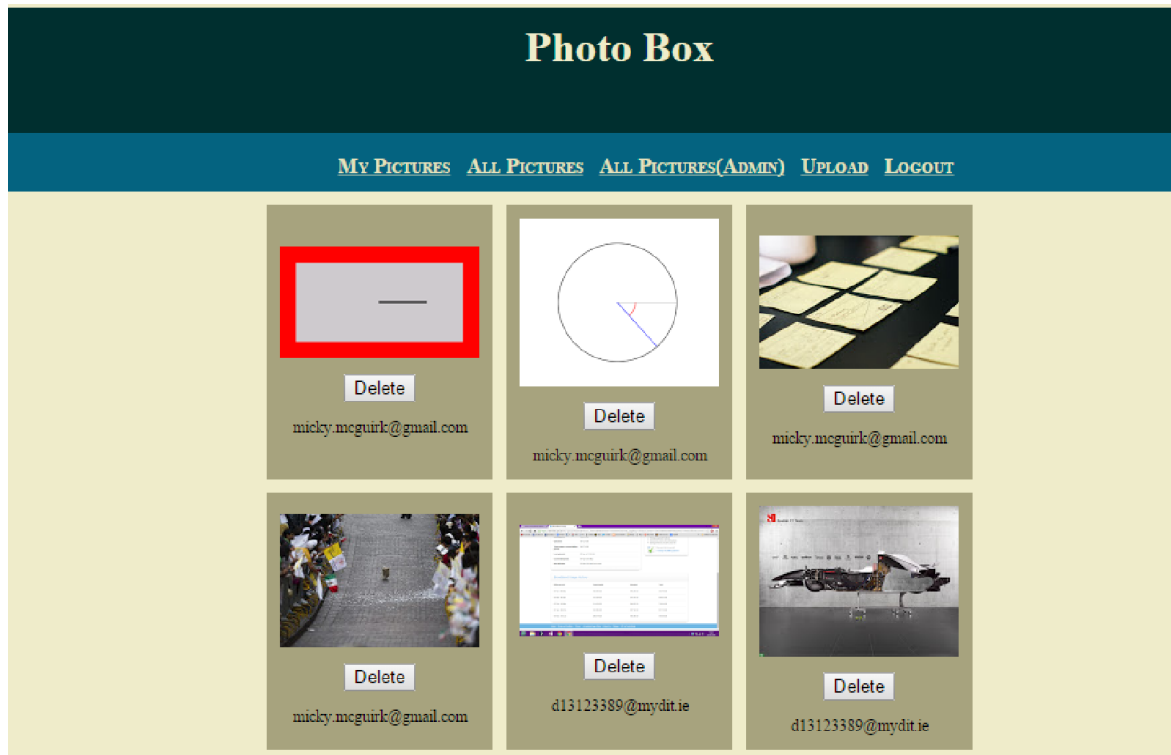

Figure 3

Admin users have the same facilities as standard users have to view their own images, or other users' public images.
